

Calling ALL “Shared Use” Trail Users in Vernon County.
Petition to Continue with Sidie Hollow Eastern Bluff Trail

Vernon Trails has been working closely with Vernon County Parks to create a new piece of shared use trail on the eastern bluff at Sidie Hollow County Park. Four public meetings were held to discuss this project dating back to October of 2021. The project was APPROVED and the FUNDING WAS RAISED by Vernon Trails. This project is being 100% paid for by Vernon Trails and is on Public Land. Vernon Trails contracted a professional trail builder to begin the project and currently has them housed in Viroqua. At a recent public gathering that was intended to simply be informative, a singular user group raised concerns about this already approved project, explaining that hunting should be allowed on the entire property, but that all other user groups should remain on half of the County Park. This concerned user group reached out to their County Board Representative and voiced their disapproval. This has currently led to a potential halt on the project.
